ANNOUNCEMENTS

A WIZ-Team Event-Works System Demonstration will be organised in the coming days and an invitation to join the demonstration will be distributed shortly.

“Progress
is not inevitable. It
is up to us to
create it.”

- Michael Bloomberg

ABOUT WIZ-TEAM

Wiz-Team is a Swiss event consultancy and data management company with head offices at the “Maison du Sport International” in Lausanne, Switzerland. With 12+ years of experience of turning ideas into products, designing solutions and managing development projects, Wiz-Team’s product Event-Works, a web-based event management platform is (in our opinion), the best, most versatile system in the market. This is why IGNITX is promoting this system

to organisations and organising committees as apart from the product itself, Wiz-Team is helmed by Johann and Tim who shares the same principles, values and vision as IGNITX. Do visit their website at www.wiz-team.com to find out more about Wiz-Team.

We will also be using the Wiz-Team system to manage the IGNITX database and each member of the IGNITX Family will have a profile page of your own.
